PROFESSIONAL
EXPERIENCE

Municipality of Camiling, Tarlac August 16 – Present
Admin Aide – Office of the Mayor

- Produced and directed live video streams for municipal events, including Mayoral office hours, fiestas, and community programs for the Municipality of Camiling.
- Managed technical production (AV setup, live switching, audio, encoding) for on-ground and remote broadcasting.
- Edited video and photo content for official use, social media, and archival documentation.
- Created interactive presentation reports for municipal stakeholders, integrating multimedia with key event data.
- Optimized production workflows, boosting editing and rendering efficiency by 60% and cutting delivery times by 40%.

Municipality of Camiling, Tarlac July 2025 – August 2026
Encoders (Under PhilHealth)

- Provided IT support and network administration for the Municipality of Camiling, managing 20+ computers, 10+ printers, and full network infrastructure (routers, switches, APs, firewalls).
- Resolved printer hardware and software issues (driver conflicts, spooler errors, network discovery, fuser/roller maintenance) for HP, Epson, Brother, and Canon devices.
- Performed data encoding, format conversion, and digitization for official records—video transcoding, OCR document processing, and structured database encoding (CSV, JSON, XML).
- Deployed temporary IT setups for off-site events, including portable Wi-Fi, network cabling, and power management.

Municipality of Camiling, Tarlac July – December – 2025
Full-Stack Web & Mobile App Developer | Municipality of Camiling
Project – <https://camilingom.vercel.app/>

- Led end-to-end development of a comprehensive web and Android application for the Municipality of Camiling, enabling secure, real-time access to municipal data via the internet.
- Engineered a full-stack web and Android application using React, Node.js, Firebase Auth, and Supabase to provide secure, public access to municipal data.
- Optimized application performance, resulting in a 60% improvement in UI responsiveness and a 40% reduction in loading times.
- Designed and implemented the backend architecture using Supabase for PostgreSQL database and storage, ensuring efficient data management, scalability, and real-time updates.
- Improved UI performance by 60% by identifying and resolving rendering bottlenecks through the strategic use of Context API and React Hooks.

Tuskan Design Service Inc.

April – June 2025

Project Based – (Freelance) Full Stack Web Developer (React / Nodejs)

- Reduced the website's bounce rate by 30% through performance tuning and end-user latency optimization.
- Improved UI performance by 60% by identifying bottlenecks, leveraging technologies like Context API and React Hooks.
- Increased code implementation efficiency by 55% using key React JS strategies for the development team of 2, which markedly boosted project turnaround timeframe.
- Led the development of a large scale, beta testers-facing web application that saw a 45% increase in user engagement, using React JS and Redux
- Achieved a significant reduction of up to 40% in loading time by optimizing components and effectively using React life cycle methods.

Tuskan Design Service Inc.

February – April 2025

On the Job-Training

- Develop a quality and complex software Canva-like editor with two-person in development team
- Conducted comprehensive experiments, data analysis, and critical thinking to integrate and refine development of system.
- Collaborated with functional team and supervisor to ideate and prototype innovative solutions for industry-specific challenges
- Create and implement SQL database design, build RESTful APIs with XAMPP, and ensure secure, optimized backend performance.

EDUCATION**Tarlac Agricultural University | 2025 (*Cum Laude*)**

- Bachelor of Science in Information Technology

Northridge Institute of Business and Technology Inc. | 2025

- Career Entry Course for Software Developer – Legacy Cobol, TESDA

Northridge Institute of Business and Technology Inc. | 2024

- Creative Web Design – TESDA

STIKI MALANG – Indonesia | February 16, 2023

- Bachelor of Information System at Sekolah Tinggi Informatika & Komputer Indonesia – Web Programming

STIKI MALANG – Indonesia | September 5, 2023

- Bachelor of Information System at Sekolah Tinggi Informatika & Komputer Indonesia – Computer Vision

Camiling Catholic School Inc. | 2021

- Senior High School
-

SKILLS**Front End Development**

- React, HTML, CSS, JavaScript, PHP (frontend)

Back End Development

- MySQL, XAMPP, RESTful APIs, Nodejs, PHP (backend)

Game Development

- Unity

Graphic Design

- Adobe Photoshop, After Effects, Premiere Pro, Canva

Technical Skills

- Problem-Solving, Troubleshooting, Analytical skills, Communication, Adaptability, Coding, Network configuration, Hardware deployment, Leadership, Teamwork, Communication

Database Management

- Relational Database Management System, Design, Queries, Optimization
-

CERTIFICATES

Best Presentation Award | 2025

Tarlac Agricultural University

Career Entry Course for Software Developers – Legacy Cobol – 2025

Technical Education and Skills Development Authority (TESDA)

English for Tourism Professionals | 2024

Technical Education and Skills Development Authority (TESDA)

Unboxing the Filipinno Innovation Mindset | 2024

Tarlac Agricultural University

Web Programming | 2023
